

Curriculum Vitæ

Luiz Max Fagundes de Carvalho
lmax.procc@gmail.com

*Program for Scientific Computing (PROCC), Oswaldo Cruz Foundation (Fiocruz),
Rio de Janeiro – RJ, Brazil*

Summary

Natural biological processes emit signals, which are often too loud or too low for us to “hear”. My goal as a scientist is to develop and apply statistical and mathematical tools to decode and quantify these biological signals, specially those imprinted in pathogens’ – and their hosts’ – genomes. I hope a better understanding of these entities can contribute to the general theory of biology and also lead to a progressive reduction of the world’s disease burden.

I have a broad range of interests in quantitative biology, from complex networks to spatial analysis to statistical phylogenetics. Nevertheless, my main scientific interest is to understand the complex interaction between rapidly evolving pathogens, such as RNA viruses, and their hosts. I have published peer-reviewed papers in indexed international journals, such as *Infection*, *Genetics and Evolution* and *Transactions of the Royal Society of Tropical Medicine and Hygiene*. I have also attended to or had work presented at national and international conferences, such as the Brazilian Congress of Virology, the Brazilian Congress of Epidemiology, the International BioInformatics Workshop on Virus Evolution and Molecular Epidemiology and the Gordon Research Conference on Biology of Host-Parasite Interactions.

As you will notice if you continue reading this CV, I am a big fan of collaboration, interacting with colleagues around Brazil and overseas. My current interests are:

- Bayesian inference of deterministic models;
- Incorporating geographic structure (neighbourhood, natural barriers, etc.) into CMTC-based phylogeographic diffusion models (check <https://github.com/maxbiostat/PhylogeographeR>);
- Coupling mathematical models to coalescent-based population reconstructions;
- Applying complex networks to data mining and vizualization in large genomic databases;

Please feel free to contact me if your interests lie anywhere near these topics.

Lattes CV: <http://lattes.cnpq.br/7282202947621572>

Education

2009–2012 | BSc in Microbiology and Immunology, Federal University of Rio de Janeiro, Brazil.

Professional Experience

2010–2013 | Pan American Health Organization (PAHO)
Position: Statistical Assistant
Role: Developed and analysed quality control experiments for veterinary diagnostic tests;
Research on Foot-and-Mouth Disease virus phylodynamics

Academic Experience

2009–2011 | Sector of Infectious Diseases Epidemiology (SEDI), Institute of Microbiology, Federal University of Rio de Janeiro
Position: Scientific initiation student
Advisor: Prof. Dr. Fernando Portela Câmara
Role: Research on statistical methods in the epidemiology of AIDS, sylvatic yellow fever and dengue

2012–2013 | Program for Scientific Computing (PROCC), Oswaldo Cruz Foundation (Fiocruz)
Position: Scientific initiation student
Advisor: Prof. Dr. Oswaldo Gonçalves Cruz
Role: Research on spatial partition methods for health areal data

2013– | Program for Scientific Computing (PROCC), Oswaldo Cruz Foundation (Fiocruz)
Position: Scientific initiation student
Advisors: Prof. Dr. Claudio Struchiner and Dr. Leonardo Bastos
Role: Research on Bayesian inference of deterministic population growth models

Conferences¹

Presented work

- | | |
|------|---|
| 2009 | Gomes, A.L.B.B.; Carvalho, L.M.; Camara, F.P. Dinâmica Espacial da Dengue no Rio de Janeiro: 1986 a 2009 [Spatial dynamics of dengue in Rio de Janeiro: 1986 to 2009] , 2009, II International Congress on Geography of Health, Uberlândia -MG, Brazil. |
| 2011 | Vianez Jr., J.L.; Carvalho, L. M.; Bisch, P. Development of a workflow for large-scale epitope prediction: dengue virus as a study of case. In: X Meeting 2011, 2011, Florianópolis-SC, Brazil. X Meeting 2011 Abstract Book, 2011. v. ID 234. |
| 2011 | Carvalho, L.M.; Santos, L.B.; Silveira, W.C. Phylodynamics of Foot-and-Mouth Disease Virus: a Complex Network approach. XXII Meeting of the Brazilian Society of Virology, Águas de Lindóia – SP, Brazil. |
| 2012 | Carvalho, L. M.; Santos, L.B.; Faria, N.R.; Silveira, W.C. Phylogeographic Dynamics of foot-and-mouth disease virus in Ecuador 2002 to 2010 , 2012 In 17th International BioInformatics Workshop on Virus Evolution and Molecular Epidemiology, Belgrade, Serbia. |
| 2012 | Carvalho, L.M.; Faria, N.R.; Silveira, W.C. Phylodynamics of Foot-and-Mouth Disease Virus in South America: a Comprehensive Analysis. XXIII Brazilian Congress of Virology, Foz do Iguaçu – PR, Brazil. |
| 2012 | Vasconcellos, L.R.C.; Dias, F.A.; Soares, J. B. R. C.; Carvalho, L. M.; Oliveira, M. M.; Alves e Silva, T. L.; Gonçalves, I.; Oliveira, M. F.; Lopes, F.G.; Lopes, A. H. C. S. Interaction of the hemipteran <i>Oncopeltus fasciatus</i> with the trypanosomatid <i>Leptomonas wallacei</i>: an insight into parasitism. In: Gordon Research Conference on Biology of Host-Parasite Interactions, 2012, Newport, RI, USA. Annals of the Gordon Research Conference on Biology of Host-Parasite Interactions, 2012. v. 1. p. 1-2. |
| 2013 | Zimmermann, L.T.; Carvalho, L.M.; Vasconcellos, L.R.; Bastos, L.S.; Struchiner, C.J.; Lopes, A.H. Temperature-dependent oviposition and egg eclosion of Chagas disease vector <i>Rhodnius prolixus</i> In XXIX Annual Meeting of the Brazilian Society of Protozoology, 2013, Caxambu-MG, Brazil. Abstract book of the XXIX Annual Meeting of the SBPz, p. 159, ID V004. |

Participated

- | | |
|------|---|
| 2012 | VIII Brazilian Congress of Epidemiology, São Paulo-SP, Brazil. |
| 2013 | 1 st Symposium on Big Data and Public Health, Rio de Janeiro-RJ, Brazil. |

¹Main conferences I have attended to or had work presented at. For a complete list please visit my Lattes CV.

Invited Talks

- | | |
|------|---|
| 2011 | <i>Phylogenetics of Foot-and-Mouth Disease Virus: a Complex Network approach.</i> XXII Meeting of the Brazilian Society of Virology |
| 2011 | <i>Playing Dumb: The Misuse of Statistics in Biology.</i> Institute of Microbiology, Federal University of Rio de Janeiro. |
| 2012 | <i>Knowledge Discovery in Databases through Complex Networks: application to phylogenetics.</i> WaFIS 2012 |

Memberships

Brazilian Society for Virology (SBV), Brazilian Statistical Association (ABE), Brazilian Society for the Advancement of Science (SBPC).

Teaching Experience

- | | |
|-----------|---|
| 2007–2011 | High School Chemistry and Biology
I was a voluntary teacher of whole-year high school courses on organic chemistry, general chemistry and biology. |
| 2010–2013 | Basics of Mathematics and Statistics for Microbiology
Federal University of Rio de Janeiro
Supervisor: Prof. Dr. Fernando Portela Câmara
Basics on descriptive statistics, Gaussian distribution and hypothesis testing.
Lately, some basic calculus too. |
| 2010 | Topics in Human Physiology
Federal University of Rio de Janeiro
Supervisor: Prof. Dr. Pedro Paulo Elsas
By means of seminars and group discussions, we discussed particular aspects of human physiology and stimulate the students to draw general conclusions about the subjacent biological processes going on. |
| 2012 | Bioinformatics
Federal University of Rio de Janeiro
Supervisor: Prof. Andrew Macrae, PhD
Basics on Bioinformatics: basic genome annotation, databases, alignment, phylogenetics. |

Awards

- | | |
|------|--|
| 2010 | Honorable Mention - XVI Week of Microbiology and Immunology |
| 2011 | Honorable Mention - XVII Week of Microbiology and Immunology |
| 2011 | Selected for Oral presentation – XXII National Meeting of the Brazilian Society for Virology |
| 2012 | Honorable Mention - XVIII Week of Microbiology and Immunology |

Languages

- | | |
|------------|------------------------|
| Portuguese | Native |
| English | Fluent (CAE – Grade A) |
| Spanish | Advanced |
